WEB DEVELOPER

Creative and detail-oriented web developer with a background in civil engineering, specializing in responsive frontend development, WordPress, interactive UI/UX, and full-stack app design. Passionate about building engaging digital experiences and intuitive web applications that solve real-world problems.

WORK EXPERIENCE

Founder & Lead web Developer | Oneskript Enterprise SEPT 2017 - PRESENT

Founded during university, Oneskript serves as my digital studio through which I've delivered tailored web solutions for a variety of clients and industries. I lead all design and development efforts while collaborating with clients on strategy and implementation.

- Built custom APIs and integrated third-party services to enhance web functionality.
- Developed scalable e-commerce platforms with secure checkout systems.
- Created responsive web applications to improve user experience and business processes.
- Delivered corporate websites, landing pages, and donation-enabled platforms.
- Managed project lifecycles from onboarding to launch and maintenance.

Web Developer (Contract) | Proforge Systems Services 2024 - 2025

Hired on a contract basis to deliver high-impact web solutions for clients in aviation, finance, and commerce.

- Developed a robust e-commerce platform tailored to business needs.
- Revamped the official AirPeace website with an intuitive, mobile-responsive interface. Built a financial services platform for Charis Microfinance Bank.
- Implemented third-party API integrations for enhanced features.

Freelance web Designer & Developer OCT 2018 - PRESENT

Collaborated with private individuals and small businesses to deliver customized web solutions.

- Delivered responsive, visually appealing websites and UI/UX designs.
- Advised on branding, layout design, and performance improvements.
- Created and shared developer tutorials including interactive HTML/CSS galleries.

Site Supervisor | Kezikay Engineering Ltd AUG 2023 - JUN 2024

- Supervised construction projects, ensuring compliance with safety and quality standards.
- Designed and maintained the company's online presence.

Resident Supervisor | Mx Engineering Consulting NOV 2021 - JUN 2023

- Drafted construction plans using and managed field operations.
- Designed and managed the company's website to improve digital engagement.

Resident Supervisor | Mx Engineering Consulting

NOV 2021 - JUN 2023

- Drafted construction plans using and managed field operations.
- Designed and managed the company's website to improve digital engagement.
